*TITLE:* Farm to School Census and Comprehensive Review

*OMB CONTROL NUMBER:* 0584-NEW

*SUMMARY OF COLLECTION:* Section 18 of the Richard B. Russell National School Lunch Act (NSLA) (42 U.S.C. 1769) authorized and funded the United States Department of Agriculture (USDA) to establish a farm to school program in order to assist eligible entities, through grants and technical assistance, in implementing farm to school programs that improve access to local foods in schools. To measure progress towards increasing the availability of local foods in schools, the Food and Nutrition Service (FNS) conducted a nationwide Farm to School Census in 2013 and 2015. The Farm to School Program uses data from the Farm to School Census to assess farm to school programs and to set priorities for outreach and technical support, as mandated under the NSLA. This third iteration of the Census will allow FNS to make comparisons of farm to school activities and trends nationally across time and help contribute to a comprehensive review of farm to school activities over the 10 year period since the USDA Farm to School grant program was established.

*NEED AND USE OF THE INFORMATION:* This voluntary study will collect information from State Child Nutrition and Agriculture directors, School Food Authority directors of public and private schools, and distributors. FNS will use the data collected

from this study to prepare a Comprehensive Farm to School Report that will include a cumulative assessment of the scope, accomplishments, and potential of the farm to school activities of FNS. The results of this study will be used to improve the methods and tools used by FNS to describe the impact and benefits of various farm to school activities administered by grantees, schools, school food authorities, and other stakeholders.

*NUMBER OF RESPONDENTS:* 20,083

### **Food and Nutrition Service**

*TITLE:* WIC Infant and Toddler Feeding Practices Study-2 (ITFPS-2) Age 6 Extension

*OMB CONTROL NUMBER:* 0584-0580

*SUMMARY OF COLLECTION:* The Healthy, Hunger-Free Kids Act of 2010 (Public Law 111-296, Sec. 305) mandates programs under its authorization, including WIC, to cooperate with the United States Department of Agriculture (USDA) program research and evaluation activities. The USDA's Special Supplemental Nutrition Program for Women, Infants and Children (WIC) serves a highly-vulnerable population: low-income pregnant and post-partum women, infants, and children through their fifth birthday who are at nutritional risk. The program provides supplemental food packages, health referrals and nutrition education for participants. The Age 6 Extension will follow children through the year following the end of their WIC age eligibility, and provide data

to answer research questions relevant to WIC program and policy as well as the nutrition and wellbeing of children up to the month of their 6<sup>th</sup> birthdays.

*NEED AND USE OF THE INFORMATION:* This voluntary study will collect information from the caregivers of former WIC children, State WIC staff, WIC site staff, and health care providers. The study is needed to provide the Food and Nutrition Service with information on the factors that influence feeding practices and the nutrition and health outcomes of children in the first five years of their lives, and during their time of WIC age eligibility. The Age 6 Extension study will expand the data collection to their sixth year of life, through the first year in which they can no longer receive WIC services.

*DESCRIPTION OF RESPONDENTS:* Individuals or households; Businesses or other for-profit institutions; Not-for-profit institutions; and State, Local or Tribal Government

*NUMBER OF RESPONDENTS:* 5,004
